

By Kevin Siembieda

One game system – every genre – countless worlds – endless adventure

A lot of things are going on at the Palladium offices. The most fun is the [Palladium Open House](#) which is a mere two and a half months from now. Other things involve getting books finished and into your hands, Robotech®, and a number of business and convention matters. Crazy times. I'm going to jump right into it. Read on.

UPDATE: Palladium Open House

As we get closer and Game Masters are submitting events (please keep them coming), there has been discussion about the kinds of events, games and panel talks we should be hosting. Among them were a couple of things I wanted to mention to get your opinion on.

Kevin the player. One idea was a game where I, Kevin Siembieda, am just a player. I'm usually the Game Master because I love running games. But it was brought up to me that people might enjoy being able to say, hey, I was in a game with Kevin Siembieda. I'm hesitant, because a game is only 6-8 people and typically 4 hours long. That seems like a lot of hours to tie me up for. I could run two and a half Lord DeSilca games in that time. Or a game and a panel talk, so I'm thinking no. What do you think?

A live-streamed “all-stars” game. A role-playing game where I, and some Palladium staff and freelancers like Wayne Smith, Chuck Walton, Carl Gleba, Taylor White, etc. would be players in a game. This sounds more fun and unique to me. What do you think?

Kevin's games. I will run 2-3 Lord DeSilca games because they're fun and people love 'em. Not sure what my other 3-4 games will be. Maybe Dead Reign and Beyond the Supernatural. If BTS I could play test some ideas for the magic system. That might be cool. Any requests for me to consider?

Any POH panel requests? I know you come to game, but folks also enjoy panel discussions. Any topic requests?

UPDATE! World Book 36: **Rifts® Sovietski**

™

– ships February

I am sorry to say we were not able to layout [Rifts® Sovietski](#)

™ last weekend after all. Somehow I had missed finishing a big section. I had started it, but put it aside to work on something else, and never came back to it. I know, what a dope. Thank goodness I caught my mistake before it went to print. I have been editing and writing the last of it like crazy. Meanwhile, Wayne has been focused on layout prep and editing the new material as I crank it out. The book will go to the printer next week. Still on track for an end of February release.

[Rifts® Sovietski](#)™ is freakin' awesome. So much cool stuff: The Cold Born psychic (think

Burster with ice and cold), the mysterious and powerful Yaganar, the yeti-like Wolverine People and other cool D-Bees, a bunch of very new and different cyborgs, a bunch of M.O.S. skill packages that make character creation fast and fun, tables for a character's background, unique characters, interesting places and back story that provides ideas for adventure and is a fun read. This World Book has it all. There is so much in this book that you are going to love. Everyone who has seen the finished sections of the Sovietski Soldier revisited, the Spetsnaz secret police/special forces, the D-Bees, the Religious Enclaves, and ... well, pretty much any of it, has gone wild over it. The first word out of their mouth being, "Wow." I think that's my favorite word for a critique of a book. Like [**Rifts® Secrets of the Atlanteans**](#)™ there is a lot of "Wow Factor" in **Rifts® Sovietski**™, as well as a lot of fun little touches that will make you smile and add spice to your character or your game.

Rifts® Sovietski™ is also the final puzzle piece that pulls together several other Rifts® titles to create a cohesive area of the world that offers new adventure opportunities. They

include [**Warlords of Russia**](#)

™,

[**Mystic Russia**](#)

™,

[**Mindwerks**](#)

™ (Poland and a slew of D-Bees, monsters and adventure hooks) and

[**Rifts® Triax & The NGR**](#)

™ and

[**Triax 2**](#)

™.

UPDATE: Rifts® Bestiary™: North America, Vol. One and Two

These books gather and format the existing beasts from the current World Books and Sourcebooks (and some new beasts to spice up your games) into two big reference books. As soon as *Rifts Sovietski* goes to the printer (next week?), I dive into the final edits for both volumes, finish work on the new creatures, and send them off to the printer.

These are just the first two of what we hope to be a series of sourcebooks that collect all the notable monsters, dinosaurs and creepy crawlers of *Rifts*® Earth. The focus of the ***Rifts*® *Bestiary*™: North America,**

[**Volume One**](#)

and

[**Volume Two**](#)

being creatures of North America (US,

Canada and Mexico). Presented in alphabetical order, with maps showing their range and location, in two big books. On track for winter releases.

UPDATE: Rifts® Disavowed™

Another cool book coming soon. I look forward to getting to the final writing for [Rifts® Disavowed](#)

.

UPDATE: Rifts® Living Nowhere™

The new draft manuscript for [Rifts® Living Nowhere](#) arrived last week, though I have not

had a chance to review it.

UPDATE: Dead Reign®: In the Face of Death

TM

The ideas for [this book](#) are screaming to be committed to paper. The cover and most of the interior art is done for it, and I usually write Dead Reign® books crazy fast, so I may slot this bad boy in sooner than later.

NEWS: Palladium Books on HippoTV on Twitch.tv

Closing Thoughts

That's enough for this week: Two sales, news, the Palladium Open House (I hope you are coming), and updates aplenty does it for this week. I need to finish up my work on Rifts® Sovietski so it can get to the darn printer. Have a safe, fun weekend and game on.
